

Technical Assistance on Crops

☑ ABOUT THE SERVICE

Farming is one of the major economic activities or sources of livelihood of Jagna. Considering that farmers experience problems which would hinder abundance or quality of their agricultural produce, they need technical assistance from the Agriculture Office. The technicians conduct field surveys or the client will go to the Office of the Municipal Agriculturist and consult the personnel in the said office.

☑ FEE/S

No fees collected during consultations and assistance conducted. But if the specimens will be sent for analysis, the fare will be taken cared of, by the farmers.

☑ DOCUMENTARY REQUIREMENT/S

Specimen of damaged crops/pictures (if there are)
